

Low-Profile Cable System

Alliant Healthcare Products has expanded the product portfolio to include an innovative range of knee implants and instruments used to replace diseased, damaged, or worn joints. Designed in partnership with a world renowned surgical orthopedic leader, Signal Medical knee and hip implants have been recognized as an excellent choice for orthopedic surgeons. Medisurge, part of the Alliant Healthcare Group, is the exclusive manufacturer for Signal Medical providing world-class quality and immediate access to government distribution through Alliant Healthcare Products.

For more information about our orthopedic expansion, contact: info@allianthealthcare.com.

LOW-PROFILE

PRE-ATTACHED CRIMP

- Lab tests prove that any diameter greater than 1.5 mm reaches a point of diminishing returns.
